MAX TAPENER® HT-B(N)

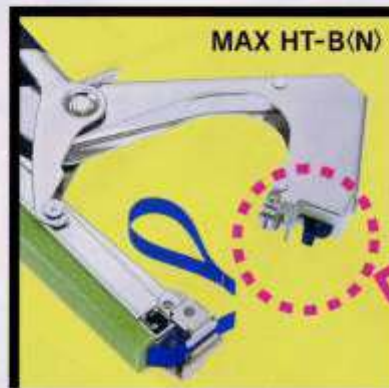

Oh! easy!!
So speedy!!

The Original "Tapener", MAX HT-B(N)

MAX TAPENER® has been proven over 30 years in the grape, tomato, olive industries and so on. It is also chosen by leading nurseries around the world as the most efficient and careful method of binding tree and stakes together. Actually, it increases the working efficiency by 3 to 5 times as compared to conventional tying methods.

Now, cuts a brilliant figure with the new feature!

New Scrap Free Mechanism(patent pending) enables you to increase your working efficiency even more, as you are free from all those tape-scrap that interfere with your work by sticking on the jaw of the tool. It is also a very ecologically friendly feature. Thanks to the Scrap Free Mechanism the new HT-B(N) doesn't make tape scraps any more, neither are tape scraps scattered during work. You keep your working area and soil clean.

MAX SERRATED BLADES

Ensures easy and smooth cutting. For the best performance, use New MAX Serrated Blades(TC 90017) for MAX HT-B(N).
